

POLISH-UKRAINIAN SCIENTIFIC SEMINAR

**POLYMER NANOMATERIALS
FROM SYNTHESIS
TO APPLICATION**

**10.00 – 12.00
December, 8, 2014**

**Institute of Macromolecular Chemistry of NASU
Kharkivske shose st., 48, Kyiv**

Polish Academy of Sciences
Scientific Centre in Kyiv
B. Khmel'nitskii st., 49, ap. 4
01030, Kyiv, Ukraine

Dear colleagues,

**Welcome to the Polish-Ukrainian scientific seminar
“POLYMER NANOMATERIALS FROM SYNTHESIS TO
APPLICATION”**

**taking place December 8, 2014 (beginning at 10 a.m.) in the
Institute of Macromolecular Chemistry NASU (Kharkivske
shose st., 48, Kyiv)**

Speakers and topics

"Application of poly-p-xylylene in organic electronics“

prof. Jacek ULANSKI

Politechnika Lodzka - Technical University of Lodz, Poland

**“Properties of disentangled polymers leading to all-polymer
nanocomposites”**

prof. Andrzej GAŁĘSKI

**Centre of Molecular and Macromolecular Studies, Polish
Academy of Sciences, Lodz, Poland**

**"Electrical and mechanical properties of polymer composites
controlled by morphology"**

prof. Yeugen MAMUNIA

**Institute of Macromolecular Chemistry of the National
Academy of Science of Ukraine, Kyiv, Ukraine**

**"Cyclodextrins and Cyclodextrin-Based Polymers: Synthesis,
Properties, and Application in Nanotechnologies
(Pharmaceutical/Biomedical and Environment Protection)"**

prof. Sergii RIABOV

**Institute of Macromolecular Chemistry of the National
Academy of Science of Ukraine, Kyiv, Ukraine**

Participation is free of charge only preliminary registration is required. To attend the seminar please send the registration form with your name, position, academic degree, affiliation and e-mail on ihvs-young@ukr.net

For the additional information please contact to (+38 044) 291 02 16
